In Beach Volleyball, the team winning a rally scores a point (Rally Point System). When the receiving team wins a rally, it gains a point and the right to serve. The serving player must be alternated every time this occurs.

#### INTRODUCTION

Beach Volleyball is one of the most successful and popular competitive and recreational sports in the world. It is **fast**, it is **exciting** and the action is **explosive**. Yet the Beach form of Volleyball comprises several crucial overlapping elements whose complimentary **interactions** render it unique amongst rally games.

In recent years the FIVB has made great strides in adapting the game to a modern audience.

This text is aimed at a broad Volleyball public – players, coaches, referees, spectators, commentators – for the following reasons:

- understanding the rules better, allows better play coaches can create better team structure and tactics, allowing players full rein to display their skills;
- understanding the relationship between rules allows officials to make better decisions.

This introduction at first focuses on Beach Volleyball as a competitive sport, before setting out to identify the main qualities required for successful refereering.

#### FIVB BEACH VOLLEYBALL IS A COMPETITIVE SPORT

Competition taps latent strengths. It exhibits the best of ability, spirit, creativity and aesthetics. The rules are structured to allow **all** of these qualities. With a few exceptions, Beach Volleyball allows all players to operate both at the net (in attack) and in the back of the court (to defend or serve).

The game's early exponents on the sands of California would still recognize it because Beach Volleyball has retained certain distinctive and essential elements over the years. Some of these it shares with other net/ball/racquet games:

- Service
- Rotation (taking turns to serve)
- Attack
- Defence

Beach Volleyball is, however, unique amongst net games in insisting that the ball is in constant flight – a flying ball – and by allowing each team a degree of internal passing before the ball must be returned to the opponents.

Modifications to the service rule have changed the act of service from simply a means of putting the ball in play to an offensive weapon.

The concept of "rotation" is entrenched to allow for all-round athletes. The rules on player positions must permit teams to have flexibility and to create interesting developments in tactics.

Competitors use this framework to contest techniques, tactics and power. The framework also allows players a freedom of expression to enthuse spectators and viewers.

And the image of Beach Volleyball is increasingly a good one.

#### THE REFEREE WITHIN THIS FRAMEWORK

The essence of a good official lies in the concept of fairness and consistency:

- to **be** fair to every participant,
- to be **viewed** as fair by the spectators.

This demands a huge element of trust – the referee must be trusted to allow the players to entertain:

- by being accurate in his/her judgement;
- by understanding why the rule is written;
- by being an efficient organizer;
- by allowing the competition to flow and by **directing** it to a conclusion;
- by being an **educator** using the rules to penalise the unfair or admonish the impolite;
- by promoting the game that is, by allowing the spectacular elements in the game to shine and the best players to do what they do best: entertain the public.

Finally we can say that a good referee will use the rules to make the competition a fulfilling experience for **all** concerned.

To those who have read thus far, view the rules which follow as the current state of development of a great game, but keep in mind why these preceding few paragraphs may be of equal importance to you in your own position within the sport.

# **Get involved! Keep the ball flying!**

1.3 LINES ON THE COURT

1.3.1 All lines are 5 cm wide. The lines must be of a colour which contrasts sharply with the colour of the sand.

#### 1.3.2 Boundary lines

Two side lines and two end lines mark the playing court. There is no centre line. Both side and end lines are placed inside the dimensions of the playing court.

Court lines should be ribbons made of a resistant material, and any exposed anchors should be of a soft, flexible material.

#### 1.4 ZONES AND AREAS

There is only the court, service zone and the free zone surrounding the court

1.4.1 The service zone is an 8 m wide area behind the end line which extends to the edge of the free zone.

#### 1.5 WEATHER

The weather must not present any danger of injury to the players.

#### 16 LIGHTING

For FIVB, World and Official Competitions, played at night, the lighting on the playing area should be 1,000 to 1,500 lux measured at 1 m above the surface of the playing area.

#### 2 NET AND POSTS

D3

D2

#### 2.1 HEIGHT OF THE NET

2.1.1 Placed vertically over the middle of the court there is a net whose top is set at the height of 2.43 m for men and 2.24 m for women.

Note: The height of the net may be varied for specific age groups as follows:

| Age Groups         | Females | Males  |  |
|--------------------|---------|--------|--|
| 16 years and under | 2.24 m  | 2.24 m |  |
| 14 years and under | 2.12 m  | 2.12 m |  |
| 12 years and under | 2.00 m  | 2.00 m |  |

2.1.2 Its height is measured from the centre of the playing court with a measuring rod. The net height (over the two side lines) must be exactly the same and must not exceed the official height by more than 2 cm.

#### 2.2 STRUCTURE

The net is 8.5 m long and 1 m (+/- 3 cm) wide when it is hung taut, placed vertically over the narrow axis at the middle of the court.

D3

It is made of 10 cm square mesh. At its top and bottom there are two 7-10 cm wide horizontal bands made of two-fold canvas, preferably in dark blue or bright colours, sewn along its full length. Each extremity of the upper band has a hole through which passes a cord fastening the upper band to the posts to keep the top of the net stretched taut.

Within the bands, there is a flexible cable in the upper one and a cord in the bottom one for fastening the net to the posts and keeping its top and bottom taut. It is permissible to have advertising on the horizontal bands of the net.

For FIVB, World and Official Competitions, an 8.0 m net with smaller meshes and brandings displayed between the ends of the net and the posts may be used, provided that the visibility of the athletes and officials will be preserved. Publicity may be printed on the above items as per FIVB regulations.

#### 2.3 SIDE BANDS

Two coloured bands, 5 cm wide (same width as the court lines) and 1 m long, are fastened vertically to the net and placed above each side line. They are considered part of the net.

14.1.1, D3

Advertising is permitted on the side bands

#### 2.4 ANTENNAE

An antenna is a flexible rod, 1.80 m long and 10 mm in diameter, made of fibreglass or similar material.

An antenna is fastened at the outer edge of each side band. The antennae are placed on opposite sides of the net.

The top 80 cm of each antenna extends above the net and is marked with 10 cm stripes of contrasting colour, preferably red and white.

The antennae are considered as part of the net and laterally delimit the crossing space.

D2. D3 251 The posts supporting the net are placed at a distance of 0.70-1.00 m from each side line to the post padding. They are 2.55 m high and preferably adjustable. For FIVB, World and Official Competitions, the posts supporting the net are placed at a distance of 1 m outside the side lines. The posts are rounded and smooth, fixed to the ground without wires. 2.5.2 There shall be no dangerous or obstructing devices. Posts must be padded. ADDITIONAL EQUIPMENT All additional equipment is determined by FIVB regulations. **BALLS** 3 3.2 The ball shall be spherical, made of a flexible material (leather, synthetic leather, or similar) which does not absorb moisture, i.e. more suitable to outdoor conditions since matches can be played when it is raining. The ball has a bladder inside made of rubber or a similar material. Approval of synthetic leather material is determined by FIVB regulations. Colour: light colours or a combination of colours. Circumference: 66 to 68 cm Weight: 260 to 280 g. Inside pressure: 0.175 to 0.225 kg/cm<sup>2</sup> (171 to 221 mbar or hPa). UNIFORMITY OF BALLS All balls used in a match must have the same standards regarding

circumference, weight, pressure, type, colour, etc.

FIVB, World and Official Competitions must be played with FIVB 3.1, 26.2.7 approved balls, unless by agreement of FIVB.

For FIVB, World and Official Competitions, three balls shall be used. In this case, six ball retrievers are stationed one at each corner of the free zone and one behind each referee

|---------|---|---------------------------------|
|         | Each team must play within its own playing area and playing space (except Rule 10.1.2).   | 10.1.2                          |
|         | The ball may, however, be retrieved from beyond the free zone.  |                                 |
| 9.1     | TEAM HITS   |                                 |
|         | A hit is any contact with the ball by a player in play.   |                                 |
|         | Each team is entitled to a maximum of three hits for returning the ball over the net. If more are used, the team commits the fault of "FOUR HITS".  |                                 |
|         | These team hits include not only intentional hits by the player, but also unintentional contacts with the ball.   |                                 |
| 9.1.1   | CONSECUTIVE CONTACTS  |                                 |
|         | A player may not hit the ball two times consecutively (exceptions, see Rules: 9.2.3, 14.2 and 14.4.2).  | 9.2.3, 14.2,<br>14.4.2, D9 (17) |
| 9.1.2   | SIMULTANEOUS CONTACTS   |                                 |

| 9.1.2.1 | When two teammates touch the ball simultaneously, it is counted as two hits (with the exception of blocking).   | 14.2                            |
|         | If they reach for the ball but only one of them touches it, one hit is counted. $$  |                                 |
|         | If players collide, no fault is committed.  |                                 |
| 9.1.2.2 | When two opponents touch the ball simultaneously over the net and the ball remains in play, the team receiving the ball is entitled to another three hits. If such a ball goes "out", it is the fault of the team on the opposite side. |                                 |
| 9.1.2.3 | If simultaneous hits by two opponents over the net lead to an extended contact with the ball, play continues.   | 9.1.2.2                         |
| 9.1.3   | ASSISTED HIT  |                                 |
|         | Within the playing area, a player is not permitted to take support from a teammate or any structure/object in order to hit the ball.  |                                 |
|         | However, a player who is about to commit a fault (touch the net or interfere with an opponent, etc.) may be stopped or held back by a team-mate.  |                                 |

| 10.1.2. | The ball when played back crosses the vertical plane of the net again totally, or partly through the external space on the same side of the court.                        | D4b        |
|         | The opponent team may not prevent such action.  |            |
| 10.1.3  | The ball is "out" when it crosses completely the lower space under the net.   |            |
| 10.1.4  | A player, however, may enter the opponents' court in order to play the ball before it crosses completely the lower space or passes outside the crossing space.            | 10.1.3     |
| 10.2    | BALL TOUCHING THE NET   |            |
|         | While crossing the net, the ball may touch it.  | 10.1.1     |
| 10.3    | BALL IN THE NET   |            |
| 10.3.1  | $\ensuremath{A}$ ball driven into the net may be recovered within the limits of the three team hits.  | 9.1        |
| 10.3.2  | If the ball rips the mesh of the net or tears it down, the rally is cancelled and replayed.   |            |
| 11      | PLAYER AT THE NET   |            |
| 11.1    | REACHING BEYOND THE NET   |            |
| 11.1.1  | In blocking, a player may touch the ball beyond the net, provided that he/she does not interfere with the opponent's play, before or during the latter's attack hit.      | 14.1, 14.3 |
| 11.1.2  | After an attack hit, a player is permitted to pass his/her hand beyond the net, provided that the contact has been made within his/her own playing space.                 |            |
| 11.2    | PENETRATION INTO THE OPPONENT'S SPACE, COURT AND/OR FREE ZONE   |            |
| 11.2.1  | A player may enter into the opponent's space, court and/or free zone, provided that this does not interfere with the opponent's play.                                     |            |
| 11.3    | CONTACT WITH THE NET  |            |
| 11.3.1  | Contact with the net by a player is not a fault, unless it interferes with  |            |

- 11.3.2 Players may touch the post, ropes, or any other object outside the antennae, including the net itself, provided that it does not interfere with the play.
- 11.3.3 When the ball is driven into the net, causing it to touch an opponent, no fault is committed

#### PLAYER'S FAULTS AT THE NET

- 11.4.1 A player touches the ball or an opponent in the opponent's space before D9 (20) or during the opponent's attack hit.
- 11.4.2 A player interferes with the opponent's play while penetrating into the opponent's space under the net.
- 11.4.3 A player interferes with the opponent's play by (amongst others):
  - touching the top band of the net or the top 80 cm of the antenna during his/her action of playing the ball, or
  - taking support from the net simultaneously with playing the ball, or
  - creating an advantage over the opponent by touching the net, or
  - making actions which hinder an opponent's legitimate attempt to play the ball.

#### 12 SERVICE

The service is the act of putting the ball into play by the correct serving player placed in the service zone.

#### FIRST SERVICE IN A SET

12.1.1 The first service of a set is executed by the team determined by the toss.

#### 12.2 SERVICE ORDER

- 12.2.1 The players must follow the service order recorded on the score sheet.
- After the first service in a set, the player to serve is determined as 12.2.2 follows:
- 12.2.2.1 when the serving team wins the rally, the player who served before, serves again.
- 12.2.2.2 when the receiving team wins the rally, it gains the right to serve and the player who did not serve last time will serve.

| 12.2      | ALITHOPIZATION OF THE SERVICE  |                            |
|-----------|--|----------------------------|
| 12.3      | AUTHORIZATION OF THE SERVICE   |                            |
|           | The 1st referee authorizes the service, after having checked that the teams are ready to play and that the server is in possession of the ball.  | D9 (1)                     |
|           |  |                            |
| 12.4      | EXECUTION OF THE SERVICE   |                            |
| 12.4.1    | The ball shall be hit with one hand or any part of the arm after being tossed or released from the hand(s).  | D9 (10)                    |
| 12.4.2    | Only one toss or release of the ball is allowed. Moving the ball in the hands is permitted.  |                            |
| 12.4.3    | The server may move freely within the service zone. At the moment of the service hit or take-off for a jump service, the server must not touch the court (the end line included) or the ground outside the service zone. His/her foot may not go under the end line. | 1.4.2, D9 (22),<br>D10 (4) |
|           | After the hit, he/she may step or land outside the service zone, or inside the court. If the line moves because of the sand pushed by the server, it is not considered a fault.  |                            |
| 12.4.4    | The server must hit the ball within 5 seconds after the $1^{\rm st}$ referee whistles for service.   | D9 (11)                    |
| 12.4.5    | A service executed before the referee's whistle is cancelled and repeated.   | D9 (23)                    |
| 12.4.6    | If the ball, after having been tossed or released by the server, lands without being touched or caught by the server, it is considered as a service.   |                            |
| 12.4.7    | No further service attempt will be permitted.  |                            |
| 12.5      | SCREENING  | D9 (12)                    |
| 12.5.1    | A player of the serving team must not prevent the opponent, through individual screening, from seeing the server AND the flight path of the ball.  | D5                         |
| 12.5.2    | A player of the serving team makes a screen by waving arms, jumping or moving sideways during the execution of the service to hide the server and the flight path of the ball.   | D5                         |
| 12.6      | FAULTS MADE DURING THE SERVICE   |                            |
| 12.6.1    | Serving faults   |                            |
|           | The following faults lead to a change of service. The server:  |                            |
| 12.6.1.   | I violates the service order,  | 12.2, D9 (13)              |

| 13.1.2   | An attack-hit is completed the moment the ball completely crosses the vertical plane of the net or is touched by an opponent.  |                                    |
| 13.1.3   | Any player may carry out an attack-hit at any height, provided that his/her contact with the ball has been made within the player's own playing space (except Rule 13.2.4, 13.2.5 below).  | 13.2.4, 13.2.5                     |
